## What Are You Saving For?

School will start soon, but before you know it, it will be time for Halloween and other fun holidays! Be sure you save your money so you can buy a cool costume or buy gifts! Use our guide to start planning to save. We filled in an example for you.

What I want to buy	How much it costs	How many weeks until I will buy it	How much I need to save each week <i>Hint: Divide the cost by how many weeks you have until you'll buy the item. Ask an adult for help if you need it!</i>
Mom's birthday gift	\$10.00	5	\$2.00

### The Lunch Crunch

It's noon, so you go to the school cafeteria to buy lunch. But today, for some reason, all of the prices are written in code, based on the numeric values of the letters in the food names. For example, soda costs 39 cents:

$$\underline{S} + \underline{O} + \underline{D} + \underline{A}$$

$$19¢ + 15¢ + 4¢ + 1¢ = 39¢$$

Using the key below, crack the code to find the prices for the following lunch items.

**Code Key**

- A = 1 cent
- B = 2 cents
- C = 3 cents
- D = 4 cents
- E = 5 cents
- F = 6 cents
- G = 7 cents
- H = 8 cents
- I = 9 cents
- J = 10 cents
- K = 11 cents
- L = 12 cents
- M = 13 cents
- N = 14 cents
- O = 15 cents
- P = 16 cents
- Q = 17 cents
- R = 18 cents
- S = 19 cents
- T = 20 cents
- U = 21 cents
- V = 22 cents
- W = 23 cents
- X = 24 cents
- Y = 25 cents
- Z = 26 cents
